Scenario 1

***Mfg Lic not required

This layout requires entry of Electronic Dauber sales to be posted to Talex manually.
And complies with WAC 230-02-250 (4)

Scenario 2

***Mfg license is required

In order to have all systems linked, Talex would be required to have a Mfg license.

If we can remove the line (including software or equipment interfaced with such) from wac 230-02-250 (4), and insert that into 230-02-250 (5c)

we would be able to electronically link everything and have a much more efficient, and secure accounting package. It simply makes no sense to require a Mfg.

License for a "software" program! Do we start with Microsoft and tell them their Excel, Word and Works programs need to get a Mfg License? It just makes sense

not to require anything but a review and approval from the Gambling Commission.
